Rules

17. Bridge Day rappelling is **not** a training session.
18. "Speed rappels" are **not** allowed! Establishing a time limit for a rappel is something we have never wanted to do. We have attempted to discourage speed rappels because we feel that as a group, the rappellers are showcasing something very special at Bridge Day. What you do and how you do it on your own time is totally up to you. What you do here at our sponsored event has guidelines. We do **not** want inexperienced people to come away from watching the Bridge Day Rappel with the idea that they can get on a rope and "fly!"

Training, the right equipment, your group, and good judgment are paramount in what you do. As has been the rule, **“A speed rappel” will be determined by the safety team.**”

Doing a speed rappel or anything that is damaging to the event, the attendees, and/or yourself will **not** be tolerated. Your anchor can be closed and you and your team members will **not** be allowed to continue rappelling and/or ascending.

19. You must use a rack.
20. Figure 8's, micro racks, and “U” shaped frame racks are **not** used on Bridge Day. Knotted ropes, sandals, Aussie Rappels, upside down rappel, and costume accessories (i.e., antlers) that may interfere with other rappellers are **not** allowed.
21. Helmets and gloves are required.
22. **All ascents must be approved.** You may ascend on your team rope or on one of the designated ascent ropes provided by Extreme Rappels.
23. **All tandem rappels must be approved** at the Friday orientation.
24. Each team is expected to have a team communications system.
25. All ropes will be rigged under the Bridge. Two independent anchors will be provided.
26. Each team must have a minimum 900 foot 7/16” static rope.
27. Ropes must be bagged, **not** coiled or chained. There will be **no** coiling or uncoiling of ropes on the catwalk in the morning or once Bridge Day is over.
28. The catwalk will be supervised and secured on Bridge Day. A pass will be issued to each rappeller and person authorized to be in the area.
29. There must be at least two people who know how to bottom belay at the bottom of each rappel rope throughout Bridge Day (9 AM – 3 PM).
