

COVID-19 Precautions and Procedures

Stand Up Paddle Boarding is naturally a physically distant recreational activity if done correctly. At Endless Summer we want to provide you with a fun way to spend time with family or friends and also take the necessary precautions to be as safe as possible while on land and on the water.

We will be putting in place the following steps in order to follow CDC recommendations and proper protocol in order to reduce the spread of Covid-19:

1. All equipment will be sanitized before and after sessions (and following any human contact) with approved antiviral sanitizer. Equipment will not be handled by other participants.
2. All employees will wear masks during instruction. Participants are encouraged to wear masks. Once participants are a board distance apart from employees and other paddlers not included in their household they may take off their mask.
4. All paddlers will sanitize their hands before and after the session. Sanitizer will be provided and you are welcome to bring your own.
5. Participants will be asked to wait inside or next to their car until an instructor directs them to enter the dock area for paddles on the Ohio. At Taylorsville Lake, please wait at the top of the hill for additional directions. Instructors will also direct participants to specific launch sites so as to prevent unnecessary gathering.
6. If you are showing any COVID-19 symptoms on the day of the paddle you will be prohibited from participating. In this case we will need to reschedule your booking or you can receive credit for the amount of your booking. We are unable to offer refunds for any bookings. Any no-shows or cancellations less than 2 hours prior to the start of the paddle are not eligible for rescheduling or credit.
