DAY 2, Tarangire National Park, Afternoon Game Drive

Depart after breakfast for Tarangire National Park. Tarangire is the home of the tsetse fly and these aggravating insects are present throughout the year in most parts of the park - particularly in the wet season, November to June. Not even these tsetse flies, however, will take away the enjoyment of seeing huge herds of elephants and an incredible variety of bird life as you enjoy a game drive through the park on the way to the lodge.

DAY 3, Tarangire National Park, Game Drive

Depart after breakfast for a morning game drive through the Park. Named after the Tarangire River originating in the Tanzania's highlands, the Tarangire River, and its tributaries provide the only permanent water source in the area. It is, for this reason, you will find the greatest concentration of wildlife outside the Serengeti ecosystem. The Park's gigantic ancient baobab trees (also known as the upside down tree) will also provide some incredible photo opportunities.
