Depart after breakfast for Tarangire National Park. Tarangire is the home of the tsetse fly and these aggravating insects are present throughout the year in most parts of the park - particularly in the wet season, November to June. Not even these tsetse flies, however, will take away the enjoyment of seeing huge herds of elephants and an incredible variety of bird life as you do a game drive through the park en route to the lodge.

DAY 3, Ngorongoro Conservation Area

After breakfast, enjoy a leisurely morning game drive before departing for the Ngorongoro Conservation Area, a UNESCO World Heritage site in the Crater Highlands area of Tanzania. During the summer, the famous wildebeest migration passes through the Conservation Area filling the plains with well over a million of these breathtaking animals. DAY 4, Ngorongoro Conservation Area

After breakfast depart for the Ngorongoro crater floor where you will encounter most animal species found in East Africa. Descending the crater walls, you will see numerous pockets of wildlife scattered among the crater floor. The unique geography of the crater forms a natural enclosure for lions, elephants, and hyenas that stay on the crater floor year round. While in the crater, you will enjoy a box lunch at one of the picnic sites and at the end of the day, head back to the lodge in time to freshen up and enjoy a relaxing dinner.

DAY 5, Lake Eyasi (travel to Bushman Village)

After breakfast, we travel to Lake Eyasi where we will check in and meet with our guide who will escort you to the Bushman Village. There are about 85,000 Bushmen alive today, teetering on the cusp of cultural extinction. They are among the most intensively studied aboriginal people on Earth. This interest is stoked by the idea that the Bushman are one of our last connections with a hunter-gatherer existence, a way of life that was a human universal until some 10,000 years ago, in a time before man domesticated animals or grew crops. While with the Bushman you will have an opportunity to experience their way of life and learn of their tracking skills.

Here, you will see the big cats, zebra, and, of course, the wildebeest during the great migration, among other wildlife. After checking into your lodge and having lunch, enjoy a late afternoon game drive and sunset.
