Introduction

In light of concerns regarding COVID-19, we are informing our guests and partners of measures we have taken to keep everyone safe.

First and foremost, we want to assure everyone that our policies and procedures, including hygiene, have always put our guest's safety and well-being first.

Before Traveling

We strongly advise our guests to inform themselves about the local Covid-19 health advisories and mandates before booking. Pacific Catalyst II, Inc requires that all guests will be fully vaccinated, and will have taken either a Covid-19 PCR test or a Rapid Test at an official testing site within 72 hours before boarding their vessel. Guests who travel between flying and boarding our boats may bring their own rapid tests and take the test before boarding. Proof of vaccination and a negative test is required. Guests and crew who exhibit Covid-19 symptoms will not be allowed aboard and must instead seek medical care.

During our cruises, crew and guests will be asked to adhere to travel specific advisories, guidance and mandates as issued by the local governments and municipalities.

Turning Around our Vessel

In between each departure, our vessel will be thoroughly cleaned and sanitized.

Aboard our Vessels

The following precautions will be observed to the greatest extent possible:

General

- Hand sanitizer will be available in common areas (salon, dining areas and beverage stations)
- Masks are available for those who did not bring their own
- Guests will use only the private heads in their staterooms, or if in Staterooms 4 and/or 5 (on Catalyst), the lower spaces shared head will be for their use alone. Crew will use the head in crew's quarters. On Catalyst, the interior door for the main deck head will be secured. Only crew can access this head using the exterior door.
- Practice proper coughing/sneezing etiquette (into a tissue or the elbow)
- Wash or sanitize hands frequently

Food and Health Safety Protocols include:

- Authorized staff wash all dishes using health safe protocols
- Boats are thoroughly cleaned and sanitized between each trip
- All high-touch surfaces are sanitized several times each day
- General personal and food safety will be addressed in the orientation.
- Handwashing before and after meals
- Boats are equipped with: Temporal Thermometer, O2 sensor, full first aid kit, AED, Backboard, cervical collar, crutches.
- All crew members will hold current CPR/First Aid Certifications, and at least one will be a certified Wilderness First Responder.

Activities

- Kayaks and PFDs are assigned to guests for the duration of the trip

Illness

Should a guest or crew member develop two or more Covid-19 related symptoms (fever, chills, etc.), crew will test guest and cabin-mate/crew member and ask them to self-isolate until results are available. If the test is positive, all guests and crew will be tested. If the symptoms are mild or non-existent, we will continue the trip per the schedule. If guests or crew display serious symptoms, we will either go directly to the destination port or arrange a medical evacuation for the affected person(s).

In Mexico: Notify our Medical Team, Logimedex in La Paz of the situation. Arrangements will be made to provide care as required. Logimedex: 612.141.7259/612.348.5887

Departures

Upon arrival at the destination private transportation directly to the airport is available.

Insurance:

Guests are advised to purchase International Medical Insurance, including evacuation coverage.
