LEARN MORE ABOUT US

Welcome to the only zorbing destination in the USA!

Come zorbing at the Outdoor Gravity Park - featuring H2OGO zorbing with 15 gallons of 88 degree water, where you slip, slide inside the orb without tumbling. The fast and adrenaline-packed descent is akin to a bouncy water slide. If you choose to get wet bring your swimsuit and towel - this center is open, rain or shine (or cold).

During the cooler months when temps drop below 50 degrees, the Outdoor Gravity Park offers DRYGO, dry zorbing. The DRYGO is made up of three plastic spheres, one inside the other. The largest one is 11 feet in diameter. The middle sphere contains a cushion of water, and the smallest sphere slides around on the water layer. One, two or three passengers make Superman-like dives into the inner sphere and stay totally dry as they roll down a steep 1,000-foot-long hill. The DRYGO is temperature dependent as it doubles in temperature inside the orb. .
