

Work the Miracle Bar at Boom Chicago

Amsterdam's Pop Up Christmas Cocktail Bar Nov 25-Jan 3

We are looking for people with the holiday spirit to join the team for our high-quality, high-fun, pop-up cocktail Christmas bar. We serve drinks in playful mugs. The décor is over-the-top and the crowd will be up for a good time. Grinches and Scrooges need not apply.

Does one of these roles have your name written all over it? Then let's have a coffee!

Cocktail Bartenders

You make the cocktails that are guaranteed to make people smile. You mix to perfection and make them look as Christmassy as they can get. And you make sure we have the right stock in place by flagging which cocktails are the stars.

Waiters

You give our guests the over-the-top Miracle Christmas bar experience that we are aiming for. You take orders, bring the drinks, and settle the checks. You have the gift of making every guest feel "seen" even in the busiest times. And you help us get better every day by giving us feedback. You can tell the Miracle Bar Christmas story and – if you and the guests feel up for it – even the Boom Chicago story. Because hey, they also need to have fun in January, right??!!

Support Staff

If you have less experience but want to be part of this of the Christmas cheer, then this is the perfect job for you! You make our Miracle Bar run smoothly because you have your eye on the ball constantly: You prepare the cocktail stations, clean tables and keep the bar stocked. You assist the bartenders, waiters and hosts during service and collect and keep track of the fancy mugs and glassware (because we don't want them to end up in purses). And last but not least: you help us improve every day by giving us feedback.

Hosts

You are a planning machine, and you love interacting with people. You have the holiday cheer nailed because you are the first and last one our guests see. You greet people, scan QR codes, manage reservations and table seating. And for those who did not make reservations.... you make the time they have to wait fly by.
