

# Color Sorting by Train

## What you will need:

### To make the trains:

- A sheet of construction paper in each of the following colors: red, blue, yellow, green, pink, purple and brown.
- Scissors
- A cup
- 6 sheets of black construction paper
- Glue Stick
- Train Stencil

### To play the game:

- Multiple building blocks, buttons, or any item that match the colored construction paper

## What to do:

### To make the trains:

- Draw circles on the black construction paper using the cup as a guide
- Cut out the circles. These are your wheels.  
Glue them onto the bottom of each sheet of paper. (2 per train car)
- Print off the train stencil and cut out.
- Place the cut out stencil on top of a sheet of black construction paper and cut along the edges to create the engine.
- Line up your train on the floor, starting with the engine

### How to play:

- Place the blocks or buttons into a large bowl and mix them up
- Have your child sort the blocks or buttons from the bowl and place them on the train car of the same color
