

# Are You as Fast as a Train?

## What to do:

- Print the entire .pdf
- Cut out the train cars
- Tape each car to a different wall or door around the house

## How to play:

- To help your child recognize numbers, call out a random number from 1 to 10. For those littles still working on colors, you can also call out the color of the train car.
- After the number or color is called, the child runs to that train car
- Repeat until you've gone through the numbers or colors multiple times
