

Name Train

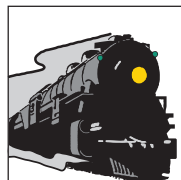

What you will need:

- Construction paper
- Markers
- Tape and glue stick
- Cotton balls

What to do:

- Using different colored construction paper, draw a square on each piece, one for each letter of your first name.
- Write the letters of your first name in the middle of each square with a marker.
- Cut out the squares.
- Print and cut out the engine.
- Color the engine with your markers.
- Take black construction paper and cut out small circles.
- Tape two solid pieces of construction paper together and glue on the engine towards the left edge.
- Glue each letter of your name behind the engine to make the train.
- Draw your tracks under the train and glue on the wheels.
- Glue on cotton balls coming from the smokestack of the engine.
