

Chessie's Spring Flowers

Chessie Cat rode the Chesapeake & Ohio Railway. Each spring, passengers could see colorful flowers as Chessie's trains rolled along. Now you can make one of Chessie's flowers. Here's how:

1. Color both parts of the flower above.
2. Cut them out, but don't cut them apart
3. Fold the flowers to make a front and back.
4. Glue the green pipe cleaner stem between the flowers.
5. Arrange the green tissue paper grass in the flower pot cup.
6. Plant Chessie's flower by placing the pipe cleaner stem in the tissue paper.
