

DIY Safari Hat

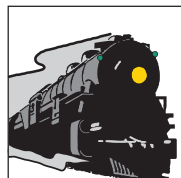

What you need:

- Paper Plate
- Paper Bowl
- Scissors
- Markers
- Glue
- Hole Punch
- Yarn or String

What you do:

- Cut the center out of the plate, large enough so that it will rest on your head
- Using markers color the plate on both sides, as well as the outside of the paper bowl
- Glue the bowl to the top of the plate over the hole. This makes the top part of the hat
- Use the hole punch and punch two holes, one on each side of the hat
- Take string or yarn and run it through each hole and knot it at the top making a tie
- ***Wear it on the next safari!***
