

A Brief History of the Grand Wine Cellars of Houmas

The Plantation was originally surrounded by five Moorish styled water cisterns beside and behind the mansion. In the 1940's Dr. Crozat demolished the five cisterns and replaced them with two matching Douglas Frerret designed high pitched terracotta tile roofed brick cisterns. Since then we have converted these beautiful water cisterns into extraordinary wine cellars. With a collection of fine wines from the mountains of Washington to coast line of New Zealand our wine cellars truly have a worldwide selection to choose from. The large water tanks that originally were enclosed in the cisterns have been replaced with bottle holders that are attached to the masonry walls, cast iron balconies, and circular staircases. The white wine cellar is located on the upriver side of the mansion while the red wine cellar is located on the downriver side of the mansion.

We can house over 1000 cases and 500 varietals of wines.
