- *A serene visit with only 14 Passengers.*

## The concept

**Open Miami** operates a vehicle which is unique in Florida! The vehicle boasts a retractable glass roof ensuring a fantastic visit whatever the weather. The Mercedes “Calèche” guarantees you an unforgettable experience, not only is the glass roof entirely transparent but also the vehicle can be converted in to an open-top bus at the flick of a switch. The weather conditions in the south of Florida can be extremely changeable and we can adjust our vehicle accordingly. Whether you are cruising with the roof open or closed or the air conditioning on or off, you will always have a sensational trip.

Rain or shine we promise you an excellent excursion!

**Open Miami** offers tours in 4 different languages (English, French, Italian and Spanish) narrated by our qualified tour guides. We have chosen live spoken narration for your trip rather than a recording broadcast through a headset, as we believe in quality above all else.

By offering a vehicle which is unique in Florida, **Open Miami** is breaking new ground in the Miami sightseeing tours market as well as assuring a premium class service.

With only 14 passengers (not including the chauffeur), your visit will always be calm and comfortable, a far cry from mass tourism and its large tourist buses with over 60 seats

A visit to Miami would not be complete without sauntering around **Little Havana** with its Latin-American art galleries and crowded eateries. ## The excursion through the Everglades

Also on offer, we have various outings to add to our Panoramic Tour of Miami, and the excursion through the **Everglades** National Park is certainly an offering you should miss under no circumstance when visiting the southern part of Florida. We offer an all-inclusive package that features transport, the visit of a **Native American village**, as well as a ride on an **airboat**.

Regardless of whether you are sharing the experience with others or enjoying a private tour, we will use our own fleet of panoramic vehicles to ensure you get the full added-value of our services.

Our goal is to offer only Premium tours, and we are able to meet our ambition with our Eco-tour of the **Everglades**, a high-quality experience that relies on our guides who accompany our clients for the entire outing. If you have opted for the shared circuit, we will pick you up in Miami or Miami Beach; however, we also offer to pick you up at the place of your choice if you have selected the customised tour.

## Miami tour combining open top buses and pontoon boats

As an indispensable feature of our Miami offering, we now have a tour combining **open top buses and pontoon boats**; it is an option of our Panoramic Tour, and we work with a reliable and professional company. Explanations are given in English and in French.

The pontoon boats we use are all the rage in Florida, thanks to their flat hull, and afford easy access to various places of interest. The combined visit lasts a full seven hours and can be entirely given in English or French.

It is possible to arrange for two tours given on separate days.

- ↪ *Visit of Miami and Miami beach, by land and by sea, on a single ticket.*
- ↪ *Excursions for small groups: Maximum of 14 passengers on the bus and on the boat.*
- ↪ *Possibility of arranging two visits on different days.*
- ↪ *Guided boat tour given entirely in English or French.*

## THE BENEFITS

- ↪ *The tour can be given in three languages.*
- ↪ *Unique atmosphere in the evening.*
- ↪ *Tour of South Beach, Downtown, Brickell, Wynwood...*
- ↪ *Stop at Wynwood.*

## Miami and Miami Beach tour to night

Our night tour of Miami has proved very popular ever since its launch, and it is in particular enjoyed for the route it takes and its stop in **Wynwood**, as only a handful of tour operators come to this neighbourhood at sundown (for the moment); the atmosphere is fantastic, with numerous restaurants, bars and rooftop venues having opened in recent years, distilling an atmosphere full of life, fuelled by

the graffiti and works of urban artists that are lit up at night, magnifying the already grandiose effect of this temple dedicated to **Street Art**.

Of course, as with our daytime tour, we will step off the bus for a walk through the neighbourhood that will take us to **Wynwood Walls**.

We will also be visiting other neighbourhoods, such as **South Beach**. The evening is the busiest time at **Ocean Drive**, with packed terraces, blaring music and a truly unique atmosphere.

# Customised Tours

It is possible to request a private version of any of our tours, and we can customise our tourist circuit and ensure our clients enjoy true added value.

Much like our day tours, our excursions are at the high-end of the range, and we use Mercedes panoramic vans to offer customised accompaniments through our certified English-, French- and Spanish-speaking guides.

In addition to our **Key West** offering, our “**Key Largo to Islamorada**” tour is our second circuit through the Keys, leaving from Miami or Miami Beach. Our clients will discover numerous activities during the tour, lasting for a full eight hours, and will be taken back the same day without the inconvenience of excessive travel time.

Our daytime and night-time visits of Miami, or our excursion through the **Everglades** National Park, can also be customised through numerous special arrangements to meet our clients’ needs. We work harmoniously with our clients to design and adapt the tour to suit their particular preferences. Our “privatisation” programme allows us to offer clients the exclusive use of an airboat for the visit of the **Everglades**, or enables them to select a location where they are collected and dropped off.

**The last addition to our catalogue** is a visit of Kennedy Space Centre, leaving from Miami or Miami Beach, with a guide to accompany you for the entire duration of the tour, providing an equally unforgettable experience. We are the only ones to offer the full tour in French, in addition to English and Spanish.

## THE BENEFITS
