and

He knows how to give customers a great day. We are supported by a team of experienced guides with collectively over 100-years' experience in the outdoors.

What? Foris Eco-tours are aimed at the 25-60+-year-old professionals, small group tours, family groups, education groups and environmentally-aware travellers.

Nature Meets Culture (\$2155)

Foris eco-tours has created a day tour for the discerning client who wants an intimate nature experience and wants to experience a genuine cultural exchange.

Our nature and culture experience starts with a short walk in Otanewainuku forest (between Rotorua and Tauranga). This is a stunning forest, home to giant trees, a fantastic community organisation that has established a strong kiwi and kokako population in the forest. We lunch at Mount Maunganui and check out Mount Drury and of course New Zealand's favourite beach at the Mount.

After this we have a private studio visit with Todd Couper. Todd is a Contemporary Māori artist who specialises in wood carving and sculpture and has forged his own style and direction in carving, with commissioned pieces residing in collections both locally and internationally. Todd shares his story of how Maori culture inspires his art practise.
