

New Safety and Sanitation Protocol at San Francisco Whale Tours

Our #1 goal at SF Whale Tours is passenger safety while on board the Kitty Kat. We are implementing new safety and sanitation protocols amidst the covid19 outbreak.

The following protocols have been provided due to the guidelines put in place by Mayor London Breed for the City of San Francisco upon reopening businesses.

- Masks will be required for all crew and unvaccinated passengers.
- Hand sanitizer will be available throughout the boat.
- Capacity will be lowered to less than 50%.
- All crew will be checked for symptoms prior to each shift.
- Physical tickets will not be handed out, rather passengers must either print their email confirmation or show them on their phone.
- Check-in will be at the boarding gate while practicing social distancing.
- Restroom will be disinfected and sanitized frequently.
- Restroom and all hard surfaces and handrails will be disinfected and sanitized thoroughly between tours.

Thank you for your cooperation and understanding to help stop the spread of covid19.
