

Woody's Watersports is constantly working on making sure that we are all safe. To that end, we have put a few guidelines in place to ensure our safety and yours while visiting. We ask that you read and adhere to the following guidelines:

- **Leasing Agreement/Waiver** must be **read and completed prior to arrival**. This will help reduce the amount of contact between employees and guests. You can fill out the waiver here: <https://waiver.smartwaiver.com/v/waiverwoodysws/>
- Anyone born after January 1st, 1988 - and is 14 years of age or older - must have completed the **Florida Temporary Boaters Safety Test prior to arrival**.
You can take the test here:
https://www.boat-ed.com/floridarental/?tap_a=20415-39769e&tap_s=148271-50b6cf
- Please come to Woody's **with a mask on**. All guests will **wear a mask** until they safely board the jet ski and are out in John's Pass. Also, upon returning.
- All customers are asked to **wait outside** of Woody's until we are ready to serve you or your party in order to best ensure safe distancing.
- While in the facility, and on the dock, we ask that you **maintain social distance**.
- All operators will be provided with a safety orientation class in **small groups** with **6 ft of distance** from each other and your livery instructor.

Please note that **reservations are highly encouraged**, as we will be reducing the amount of skis available per hour to ensure a smaller number of people inhouse and on the dock at all times. This will also help reduce the amount of paperwork and time before going out on the water.
