

Our Response to COVID-19

Our priority is to keep our staff and customers safe during COVID-19 and we are taking the following precautions to do so:

Staff are trained to perform daily self-assessments and instructed to stay home if they meet any of the assessment criteria. Staff will be equipped with facial coverings when physical distancing requirements cannot be assured.

Increased level of cleaning and sanitizing for all rafting equipment, high touch areas around shop, and shared surfaces.

Our washroom will be cleaned and disinfected regularly with signage for physical distancing and one way traffic through our shop starting July 1st.

We encourage on line booking to minimize touch points and close contact interactions.
