The mission of the Tennessee Valley Railroad Museum is to collect for preservation, operation, interpretation, and display, railroad artifacts in an authentic setting to educate the public concerning the role of railroads in the history and development of our region.

In keeping with our mission, TVRM's Locomotive #4501, the museum's collection of vintage rolling stock, and the Missionary Ridge Tunnel are all listed on the National Register of Historic Places. The state legislature recognized the Tennessee Valley Railroad Museum as the Official Railroad Museum of the State of Tennessee in 1978.
