

Plantasia Tropical Zoo Workshops

Eco-Warriors

Best suited to Key Stage 2 and above, this engaging workshop encourages learners to consider human impacts on the environment around us, inspiring a generation of ethically informed citizens. Encountering some of our incredible animals along the way, the workshop aims to nurture understanding of our own role in the environment and give learners some of the tools they need to make their own, informed decisions.

Marvellous Minibeasts

An immersive, hands-on experience in which we discover the marvellous world of the minibeasts. Children are introduced to animals from different habitats all over the world, exploring what they are, what they do and where they are from. The workshop is highly recommended for Key Stage 1 as a sensory experience, but can be adapted to all stages of learning, and makes an excellent stepping stone, inspiring further research back in the classroom.

   Follow us!

Rainforest Rangers

Come along on an incredible imaginary adventure through the layers of the tropical rainforest. Learn all about what tropical rainforests are, where they are, what they do for us and why they are so important, meeting some amazing animals along the way. This workshop delves into important topics such as deforestation and animal adaptations, and is recommended for learners at Key Stage 2, though all ages are welcome.

Predators & Prey - the Food Chain

Learn all about the trophic levels, and the ways in which animals adapt to their roles in the food chain. Meet some of our awesome animals up close, and build 3D food chains of your own in this exciting, interactive workshop.

Roots, Shoots, Flowers and Leaves

Learn all about the role and functions of plants in our remarkable tropical hothouse. Discuss what plants need to survive, and their importance in the environment.

Admission, plus a Workshop or Tour £180 per class
