DIRECTIONS/PARKING:

It is always better to be early than simply just on-time. Boat tours are like flights; if you are late, the boat will leave without you (an expensive mistake). Play it safe, be prepared, assume there is traffic, and leave early. Mahalo! Directions can be found on our website at www.napaliexperience.com. If you prefer directions over the phone, please call us at 808-635-1131.

Remember, we are on the **WEST** side of Kaua'i just past **MILE MARKER 24**.

FEEL BETTER TIPS:

- Arriving on a lighter stomach is recommended to help reduce the risk of seasickness. For guests on the Morning Magic & Mid-day Madness Tour, we strongly discourage a morning drink. **NO COFFEE!** A little food and/or sips of water is "ok". For Afternoon Adventure guests we recommend only a light meal before your tour. You will thank us later!
- Motion sickness preventatives should be taken the night before and again in the morning. This will ensure the medication is deep in your system and activated. We recommend Bonine which can be found over the counter at any grocery store or pharmacy island wide. Wristbands are another option.
- Plenty of sleep the night before your tour is highly recommended.
