

SWING YOUR TAIL FROM SIDE TO SIDE

October 7-11, 2019

With over 500 known species, sharks range in size from being smaller than a human hand to larger than a school bus. They have existed on our planet for ~455 million years, and their continued presence is vital to maintaining the natural balance of marine ecosystems. Grab your fins, grow some gills, and join us as we sink our teeth into better understanding one of our ocean's top predators!
